

EAZYVETS 2.0

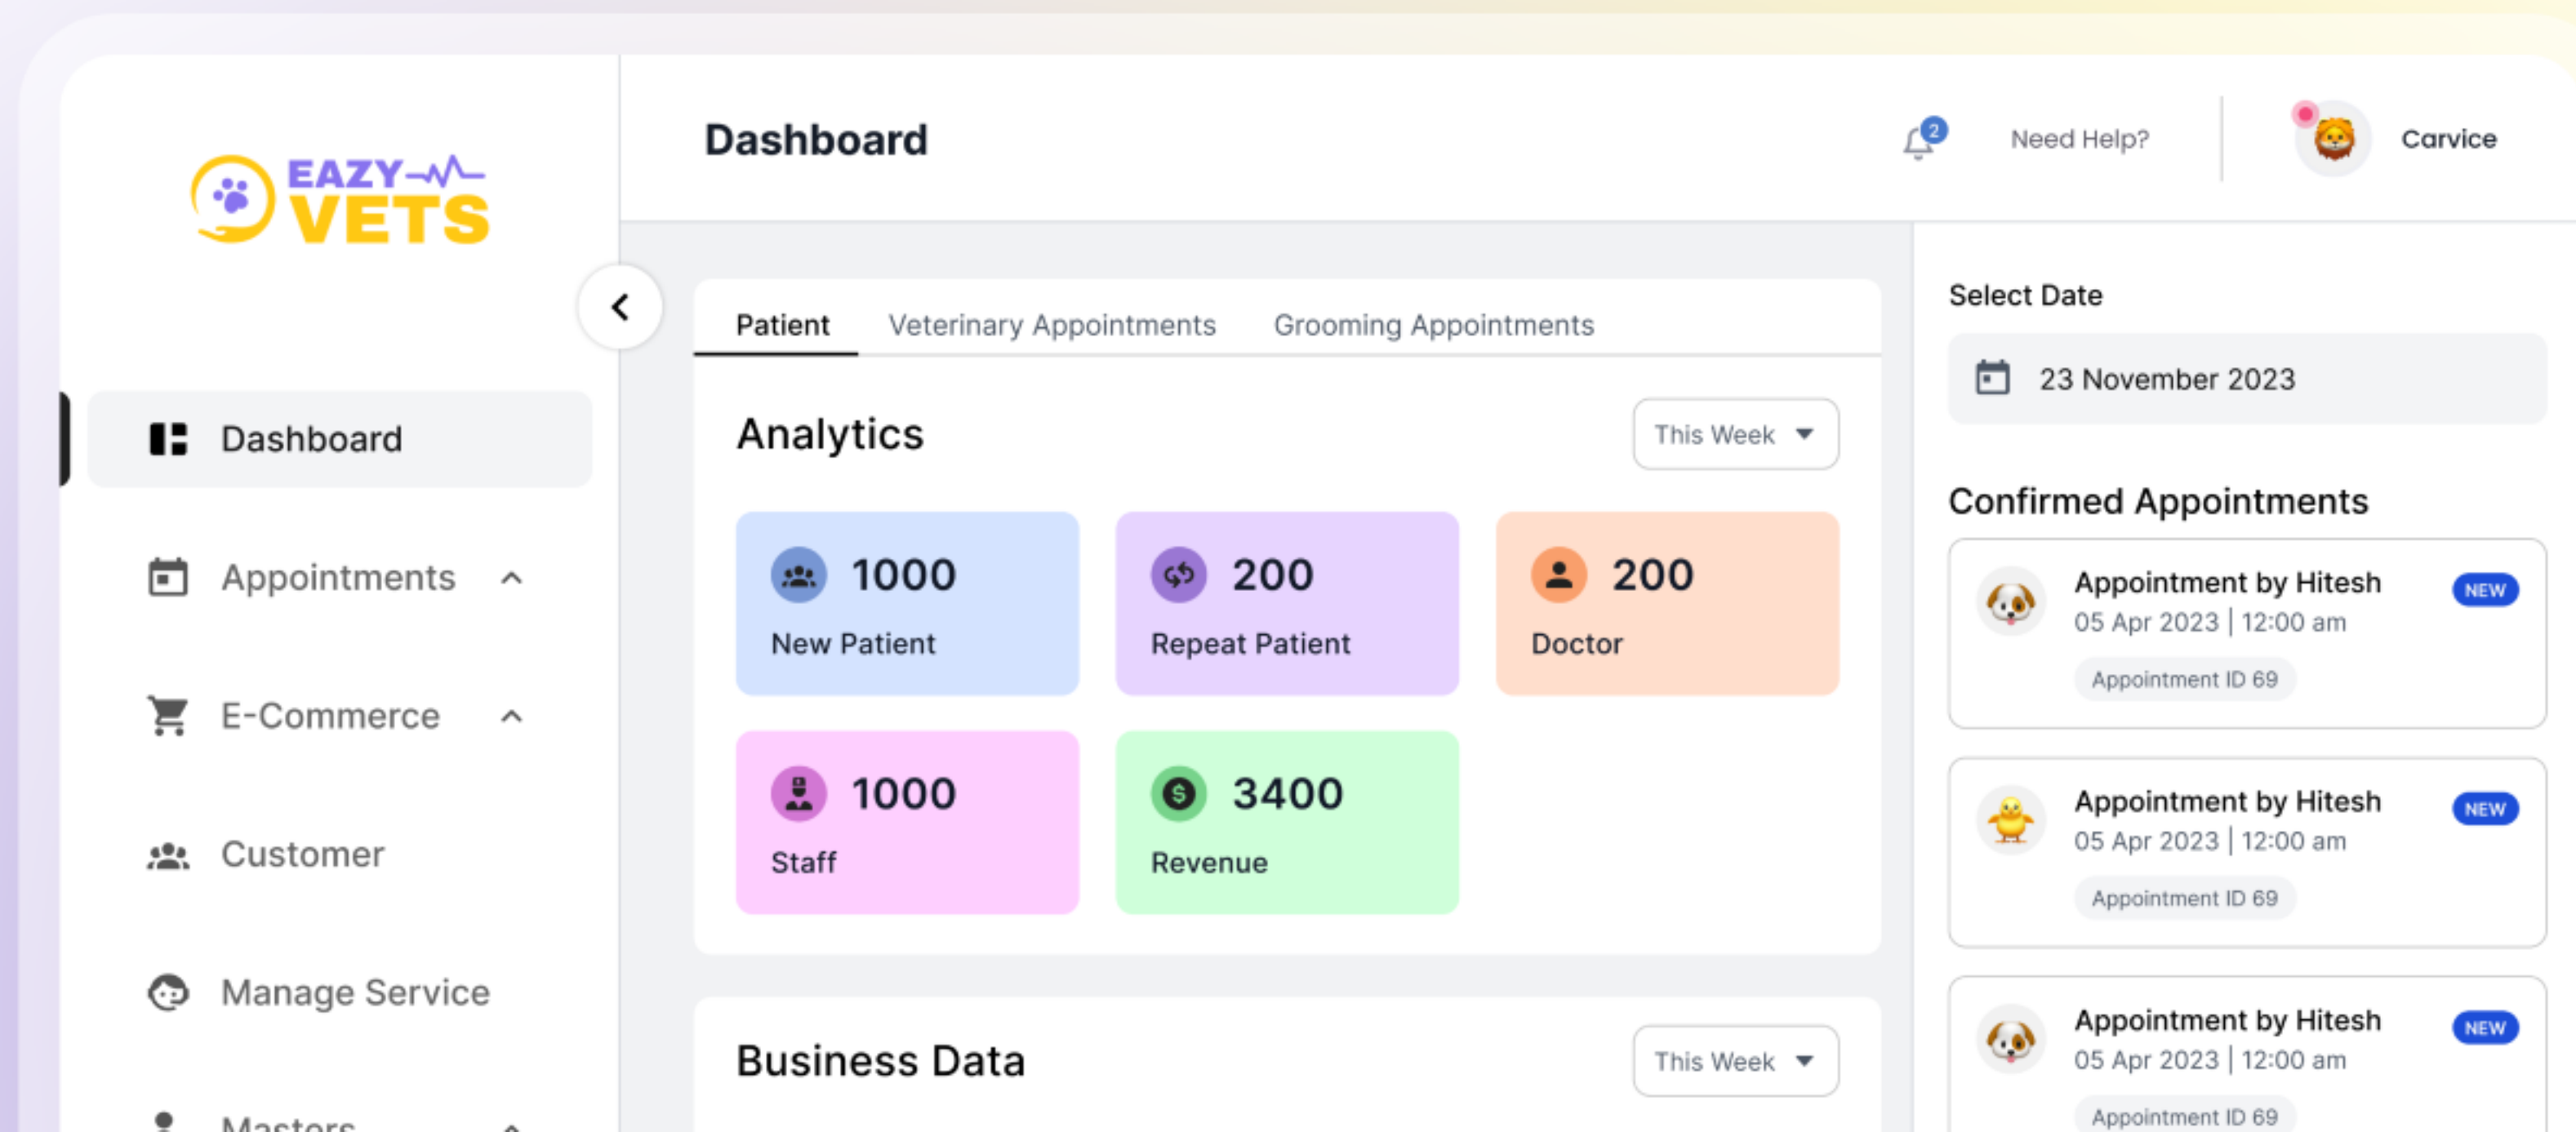

Introducing Our Revamped EAZYVETS 2.0

EAZYVETS 2.0

Digitalizing Veterinary Care for Vets

Enhance pet healthcare using our on-demand
app solution

EAZYVETS 2.0

Achieve more in less time using innovative veterinary practice solutions

Easy Vets is an advanced communication platform that allows veterinary professionals to use advanced technology and streamline client interactions. This all-in-one platform is the best way for your clients and pet parents to connect with veterinary experts anytime.

How It Works?

1

Request a Demo

To request a demo, please submit an inquiry form.

2

Demo with our Executive

One of our executives will connect with you to provide a demo of Eazyvets.

3

Start Onboarding

To onboard, you will need to submit the necessary details to create a digital platform for your clinic or business.

4

Under Process

You can be ready to launch your digital presence in just a few hours.

5

Your Web App is Live

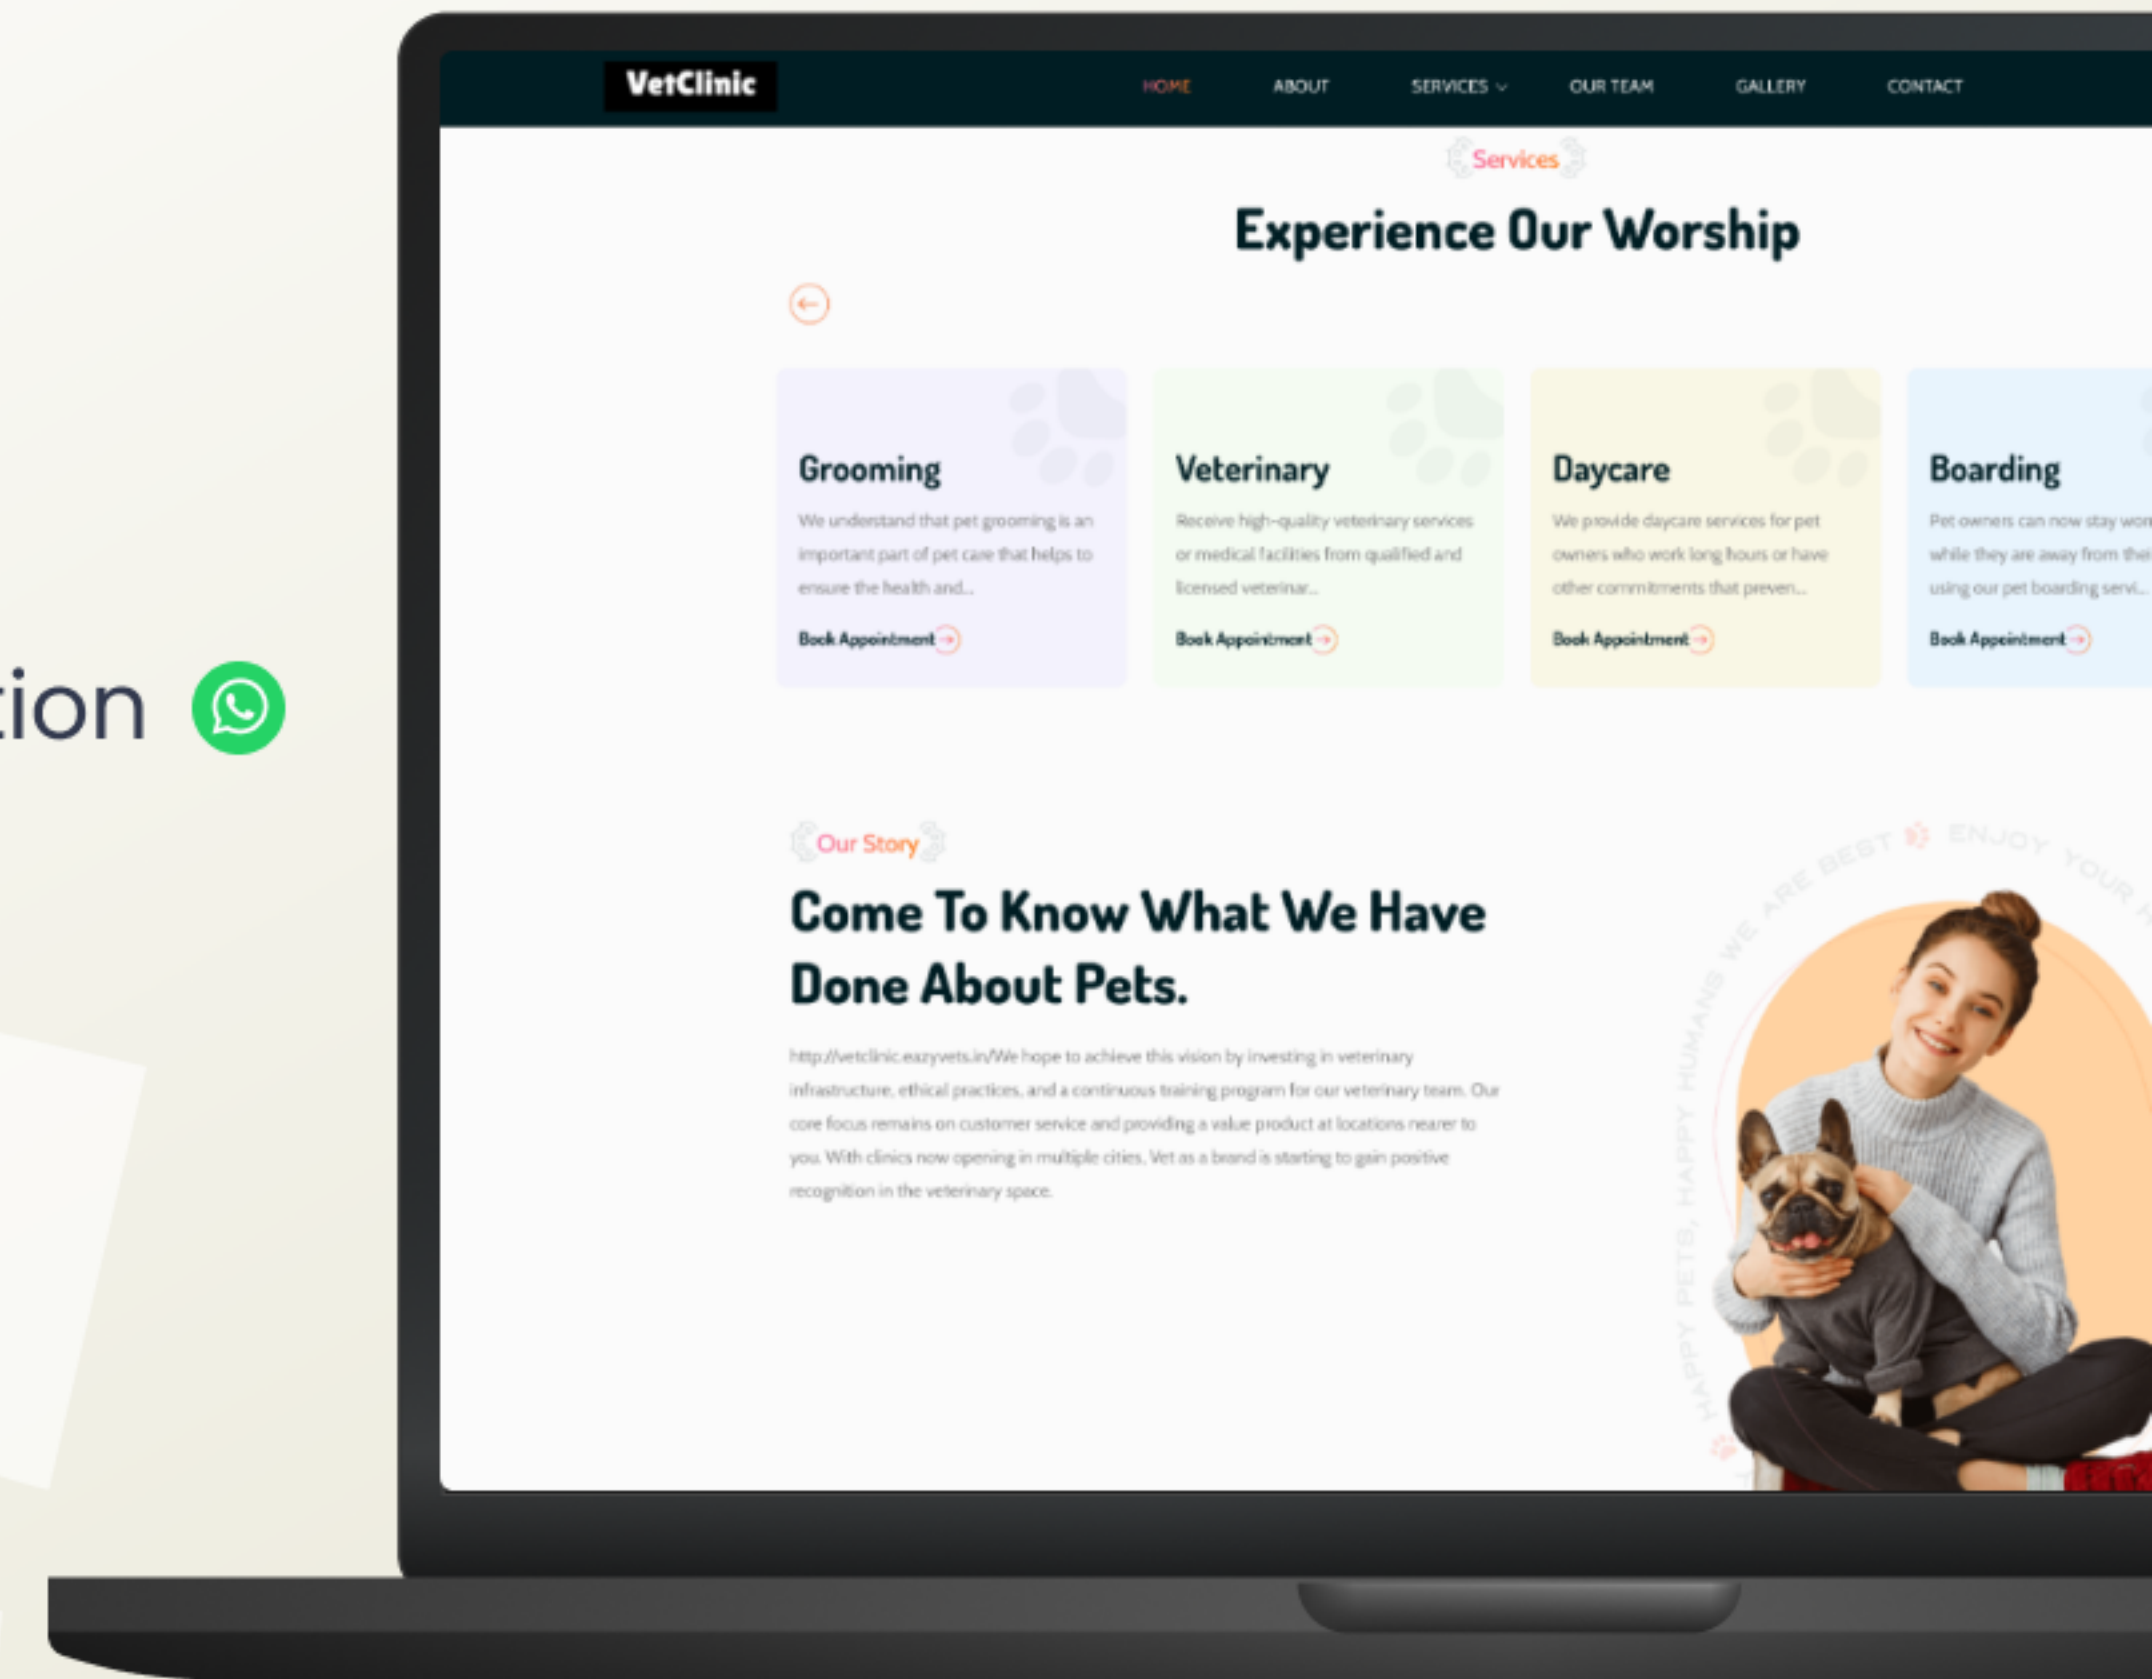

Share your website URL with your customers and get ready to enjoy seamless operations.

Advantages of having your own Petcare Business White Label App

Why choose Eazyvets White Label Solution?

- ✓ Increased brand recognition and customer loyalty
- ✓ Control over features and functionality
- ✓ Cost savings, no need to pay subscription fees per user/per doctor
- ✓ Enhanced security and privacy
- ✓ Improved customer experience
- ✓ Access to valuable data

Features

Appointment Booking

Allow customers to book appointments for physical or video consultation anytime, from anywhere.

Online Store

Online store to get quality medications, pet food, and other health care products for your customers.

1-1 Live chat

Provide instant consultation through video or audio calls as per your convenience. Also, deliver follow-up consultation using chat system.

Seamless Payments

We provide integrated payments methods so that you don't have to worry about collecting payment after every virtual consultation.

Features

Client Care Portal

The client care portal feature allows you to manage app operations (doctor management, user management, advertisements/promotions, and much more) seamlessly through backend.

Reminders

Now you don't have to remember each and every virtual appointment. Just set a reminder and get automatic alerts for the same.

ePrescriptions

Easily type and send e-prescriptions as a PDF attachment, right after a virtual visit.

Custom Scheduling

Through our application, veterinarians can enjoy the flexibility to create their own slots as per their convenience.

Benefits

- ✓ Increase your online reach and capture the attention of your target customers
- ✓ Improve customer relationship management via mobile app
- ✓ Send automated alerts and follow-up reminders to your customers
- ✓ Secure your patient health records on cloud and get rid of handling physical records
- ✓ Get dedicated white label application with fully integrated features to enable better virtual care for your patients

Benefits

- ✓ Access valuable data analytics and insights to help make informed business decisions
- ✓ Provide convenient appointment scheduling and telemedicine consultations
- ✓ Provide a seamless and user-friendly experience for your patients, leading to increased satisfaction and loyalty
- ✓ Streamline your practice management processes and reduce administrative workload
- ✓ Enhance your brand visibility and reputation with a personalized app experience
